LTLD[®]
PERFORMANCE STABILIZER LINKS

Pursuit Of Ultimate Car Performance And Comfort.
TONGYONG Machinery Company Limited.

Total: 2 performance damper.

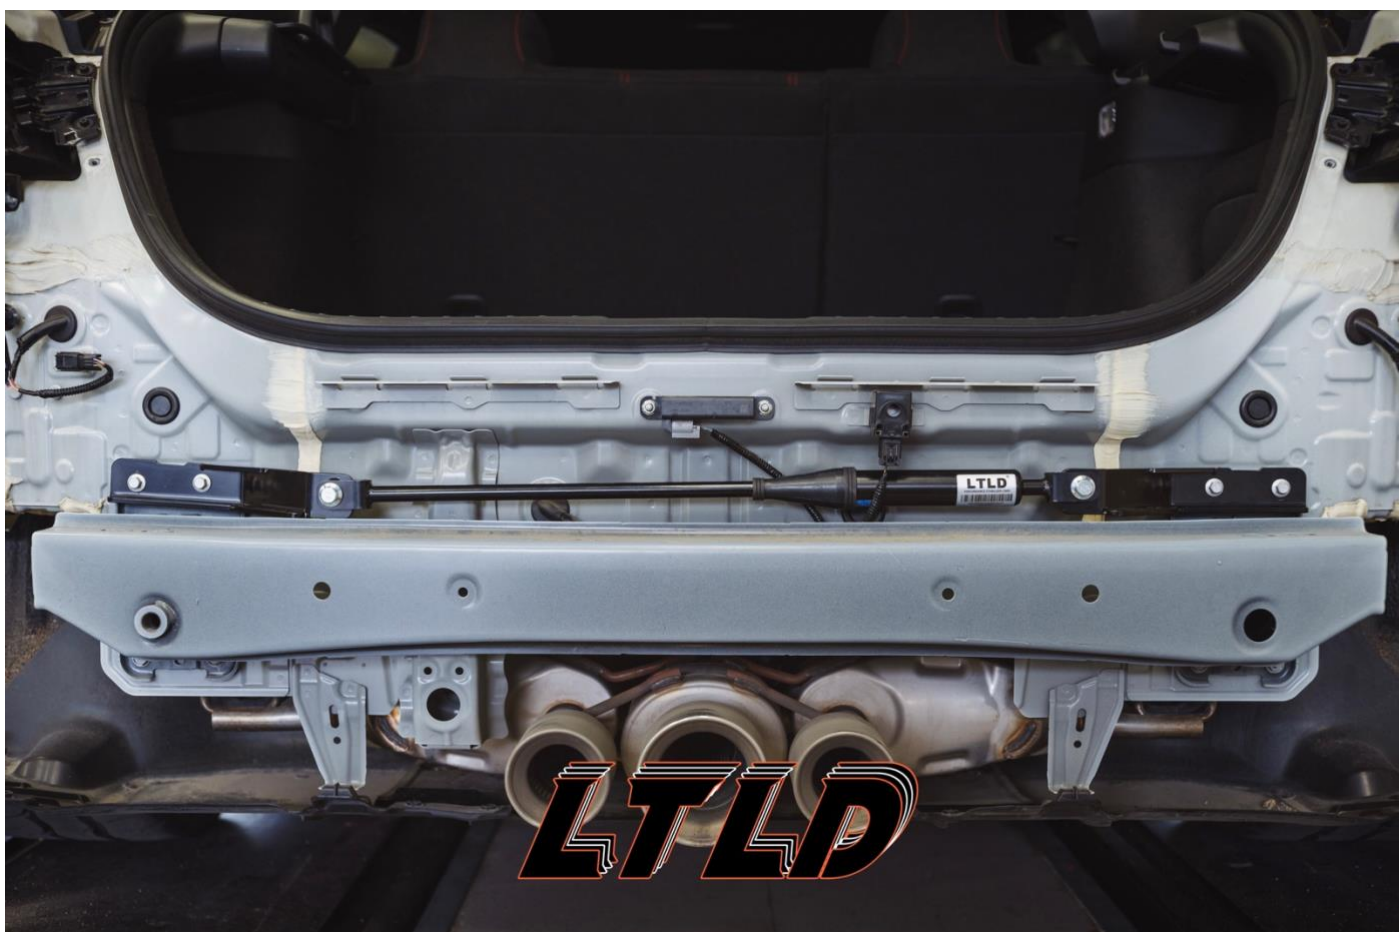

Installation instructions:

Note: The vehicle needs to land. Performance damper screw 40.0N•m. Chassis screw 16.0N•m.

① Front performance damper:
The guard plate must be removed for installation. It is installed under the water tank.

② Rear performance damper:

Remove rear bumper. It is installed above the anti-collision beam.

③ If you need to adjust the length.

Please open the dust cover on the damping rod. Loosen the screws and adjust the length.
